

HERITAGE SPAS

Luxury Relaxation

In Southern California in the early 1970s, a handful of pioneers built the world's first hot tubs. Our Heritage range pays homage to those early start ups who manufactured spas with plenty of jets which were economical to own. With technological advances since then, our Heritage range features wood-effect synthetic cabinets instead of endangered redwood and state of the art electronics instead of air valves.

With a generous eight year limited warranty, Heritage Spas are beautifully crafted and built to offer many years of enjoyment.

TRIBUTE 5 PERSON

Dimensions	2100mm x 2100mm x 920mm
Configuration	4 seats and 1 lounger
Cabinet	Wood FX low maintenance cabinet in Coastal Grey or Coffee
