

Swim Spas and Exercise Pools

Fitness, relaxation and fun, all in one

The world's most versatile exercise pools

Riptide Pools offer a world beating range of exercise pools featuring seven unique shell designs and four swim power systems with an indestructible galvanised steel frame. Riptide Pools satisfy every swimming level and water capacity, offering great value for money.

It's all about the counter-currents

With a variety of jet configurations, Riptide Pools produce a powerful counter current to swim against that will challenge even the strongest swimmer.

Great for exercise and fun for the whole family, choose from entry level pools generating up to 2,250 gallons output per minute, dedicated exercise pools that feature smooth and powerful Turbo jets, or our Nautilus Super Pro model that creates a massive force of water of up to 3,500 gallons per minute via the fully adjustable, programmable control panel.

A warm, relaxing pool experience

Thermostatically controlled up to 40°C, your pool is ready for you to take a dip and relax anytime you fancy. An insulated shell and cover keep the heat in when not in use.

Ready for use, night and day, all year round

Swimming at night is not a problem as all Riptide Pools feature underwater lighting. Unlike a conventional pool, Riptide pools are economical to run and require very little cleaning as they incorporate a state of the art filtration and sanitising system.

Pure, clean water

With high performance pumps, corona discharge ozone systems and a skimmer filter system, you can always be sure of a clean and safe pool experience in a Riptide Pool.

CHOOSING THE RIGHT RIPTIDE POOL

Riptide Pools fall into three main categories - which one is right for you?

All-in-one swim spas with one volume of water

Swim spas with one volume of water like the Riptide Hydros are popular, mainly because you can move from the hot tub end to the counter current end without getting out. Riptide one volume swim spas can seat up to five or six people plus a swimmer. With one volume of water, the water temperature is the same for those relaxing and swimming.

If you wish to have the water temperature different for both activities consider a Riptide Poseidon; a swim spa with two volumes of water.

One volume of water:
The Riptide Hydros

Riptide Pools - the benefits

CHOOSING THE RIGHT RIPTIDE POOL

A swim spa and hot tub combined with two volumes of water

Two volumes of water:
The Riptide Poseidon

The Riptide Poseidon consists of a hot tub and exercise pool in one shell. Two separate volumes of water allows independent heating controls in each end. Adjust the exercise pool temperature down to 20°C so you can exercise without getting too hot. After a swim, move into the hot tub end which can be adjusted up to 40°C for hydrotherapy and relaxation. The two ends also have independent filtration and a three piece insulated cover allowing either end to be opened independently.

Dedicated exercise pool

Dedicated exercise pools, like the Nautilus Super Pro, are designed purely for swimming, with no need for seats or hydrotherapy jets. These pools are deeper and offer a superb swim experience with high power, turbulence free counter current jets. To complement your dedicated exercise pool you could consider adding a hot tub which can be colour matched and positioned in your garden to suit your requirements.

Dedicated exercise pool:
The Nautilus Super Pro

For Fitness

Riptide exercise pools can form an important part of the day to day fitness regime of anyone who wants to stay in good shape.

Unlike other forms of exercise, swimming against the force of the exercise pool's powerful counter-currents will quickly tone up your body in a low impact environment.

For Relaxation

Thermostatically controlled up to 40°C, after a swim, lay back and relax in the warm, clear water with family and friends and enjoy the invigorating massage of the hydrotherapy jets. Being more compact than standard swimming pools, Riptide Pools can be installed where space is at a premium; in a garden or courtyard, either in-ground or above ground.

For Family Fun

Requiring very little cleaning, Riptide Pools incorporate cutting-edge filtration and sanitising systems, ensuring a clean and safe pool experience for you and your family every time you take a dip.

With an easy to remove insulated lid and insulation all round the shell of our pools, heat is trapped in and so running costs are kept surprisingly low.

Built to last a lifetime

Riptide Pool features

All the power you need: The Nautilus Super Pro

Quality components, quality made, with a 8 year limited warranty

Riptide pools are constructed using the finest hardware and materials with a quality Japanese made variable speed drive coupled with US made Aristech acrylic shells and Gecko electronics. There is up to 100mm of full foam insulation for maximum insulation throughout our pools and all components fit snugly inside a sturdy galvanised steel frame with stainless steel fixings.

Riptide Pools are designed to last, but for total peace of mind all our pools carry a 8 year limited warranty.

No huge electricity bills

With superior 2lb closed cell foam insulation up to 100mm in depth completely surrounding the shell, plus a fully insulated cover and an airtight heat lock cabinet, Riptide pools are extremely economical to run.

Customer care

At Riptide we pride ourselves on producing world class products and delivering a first class after sales service with unbeatable customer care. We want you to enjoy your pool with the knowledge that you have the support from a company that **truly** cares about your needs.

Our pools are delivered and installed by highly trained teams with a full on-board parts facility and we have dedicated technicians ensuring a prompt and efficient after-sales service.

Control System

Fully integrated, programmable Gecko control system for circulation, water temperature, filtration and lighting.

Cover choices

There is a choice of cover designs for your Riptide pool. Choose the fully insulated, heavy-duty humpback thermal cover, designed with a rise in the middle of the cover so that rain water falls away, greatly reducing water ingress and staining.

Alternatively, choose the easy to store, rollup thermal cover. Both covers are available in coffee or grey vinyl.

The covers are securely fastened by lockable, childproof, adjustable straps along all four sides.

Enjoy your Riptide pool when the sun goes down with relaxing underwater, perimeter and bar top LED lighting systems which are standard across the entire Riptide range.

Weatherproof cabinet

The weatherproof, UV resistant exterior wood-effect cabinet with stainless steel fittings is colour matched to the heavy-duty vinyl thermal cover.

Filtration systems

Riptide Pools are fitted with easy to maintain, 140ft², top-loading filter systems with an integrated weir which captures floating debris before it reaches the filters.

Pillows

Pillows are colour-coordinated to the shell and skirt combination selected, providing comfortable seating for bathers at the spa end.

Pure, clean water

Riptide Pools incorporate a corona discharge ozone system for guaranteed pure, clean water every time you use your pool.

Stainless steel rail

The rail provides additional support for aerobic exercise in your pool.

Colour changing LED lighting system

Colour changing underwater and perimeter LED lighting systems are fitted as standard across the Riptide range.

The relocatable swim spa

Install a conventional pool and you'll sink a lot more into your home than just a pool. If you move home your investment in the pool stays behind, often with no increase in property value.

Fortunately, Riptide Pools are fully relocatable - when you move home your pool goes with you! With its sturdy galvanised steel frame and internally fitted components, our fully trained staff can simply lift up your pool and take it to its new location.

Bluetooth audio system

(Optional) The Gecko In.stream bluetooth audio system with 4 transducer speakers and sub woofer is available on all Riptide Pools.

TV entertainment designed to be enjoyed in the comfort of your pool

(Optional) Designed for pool installation, our waterproof TV monitor system allows you to enjoy video entertainment in the comfort of your own garden, whatever the weather.

Triple Steps

(Optional) For above ground pool installation, these heavy duty steps are built from tough, UV stable materials and are colour matched to your pool cabinet choice.

KiddySwim Jetted Children's Play Pool

Swimming fun for kids in a safe environment

The KiddySwim is designed as a purpose-built, luxury jetted children's play pool. The six adjustable swim jets allow the counter-current power to be fine tuned for the swimming ability of each child.

Aside from its diminutive size, the KiddySwim exercise pool is much like its bigger brothers, with the same top quality sanitisation and filtration features and Riptide build quality.

With a securely fastened thermal cover, the KiddySwim provides a cost-effective way to get kids swimming from a young age, in a safe environment, helping to build their ability and confidence.

KiddySwim Specifications

DIMENSIONS	2.9m x 2.16m x 1m
WATER CAPACITY	2,500 litres
DRY WEIGHT	600kg
JETS	6 adjustable counter current swim jets
POWER SUPPLY	16 amp
POWER OUTPUT	1 x 3hp two speed jet pump
SHELL OPTIONS	Aristech in sterling white marble
CABINET	Maintenance free UV resistant synthetic wood in grey
INSULATION	25mm insulation foam applied to back of pool shell with R12 insulation heat lock system
HEAT & FILTRATION	3kW heater, 2 x 35 sq ft filtration cartridge with fine particle membrane, corona discharge ozone system
COVER	Fully insulated heavy-duty thermal cover in grey vinyl
CONTROL SYSTEM	Fully integrated Gecko programmable control system for circulation and filtration
LIGHTING	Underwater LED lighting, multi point perimeter and bar top LED lighting system
OPTIONAL EXTRAS	Cover lifter, colour matched corner steps

The Riptide Oceana is a compact but fully featured exercise pool

Oceana Exercise Pool

The Riptide Oceana is a fully featured and stylish exercise pool, designed to slot into spaces where a 6m pool will not, whilst providing plenty of swim space.

Featuring an impressive counter-current provided by three wide mouth jets, the Oceana has beautifully styled internal steps for easy access into the pool and a chrome handrail to make counter current adjustment easy.

Quality features include an ozone system and relaxing backlit waterfalls in each corner, which are perfectly accented by the waterline lighting and underwater illumination to aid swimming. A great value exercise pool with a more compact footprint than our bigger pools, the Oceana is an ideal pool to install alongside a hot tub, or where space is limited.

Oceana Specifications

DIMENSIONS	4.98m x 2.20m x 1.31m Water capacity: 6,050 litres Dry weight: 1,400kg
JETS	3 wide mouth counter-current jets
POWER SUPPLY	40 amp
PUMPS	2 x 1 speed 4hp pumps, 1 x 1 speed 3hp pump
SHELL OPTIONS	Aristech in sand or sterling white marble
CABINET OPTIONS	Maintenance free UV resistant synthetic wood in grey
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in grey vinyl
INSULATION	25mm insulation foam applied to back of pool shell with R12 insulation heat lock system
HEAT & FILTRATION	3kW heater, 2 x 35 sq ft filtration cartridge, corona discharge ozone system
CONTROL SYSTEM	Fully integrated Gecko programmable control system for circulation and filtration
LIGHTING	Underwater LED lighting, multi point perimeter and bar top LED lighting system
WATER FEATURE	Four backlit integrated corner waterfalls
OPTIONAL EXTRAS	Cover lifter, colour matched steps

Hydros All-in-one Swim Spa

The Riptide Hydros is a compact pool and spa combined in one affordable unit.

The Hydros is a compact pool and spa combined. This is definitely not an entry level pool - it is a fully functioning, incredibly well specified swim spa. The only difference is its proportions.

Designed with families in mind, the Hydros allows the kids to splash about at the jets end whilst leaving plenty of space for adults relaxing in the spa end.

Adjustable directional jets

Comfortably accommodating six people, special features of the Hydros include four powerful pumps that can either be directed to the Swim swim jets or diverted to the hot tub end or adjusted half and half.

The Hydros is a great place for swimming and relaxing. The Hydros is the perfect pool for youngsters learning to swim whilst still providing a quality hot tub experience. Also great for weightless exercising by walking against the adjustable counter currents.

Hydros specifications

DIMENSIONS	3.85m x 2.20m x 1.17m, water capacity: 4,800 litres, dry weight: 1,250kg
JETS	4 Swim swim jets plus 52 high power spa jets plus with stainless steel escutcheons
PUMPS	2 x 2.5hp pumps, 2 x 2hp pumps
POWER SUPPLY	32 amp
POWER OUTPUT	4 counter current jets, generating up to 1,650 gallons output per minute
SHELL OPTIONS	Aristech in ocean wave, silver white marble, sand
CABINET OPTIONS	Maintenance free UV resistant synthetic wood in coffee or grey
HEAT & FILTRATION	3kw heater, 2 x 35 sq ft filtration cartridge, corona discharge ozone system
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in choice of coffee or grey vinyl
CONTROL SYSTEM	Fully integrated Gecko programmable control system for circulation and filtration
LIGHTING	Underwater LED lighting, multi point perimeter and bar top LED lighting system
OPTIONAL EXTRAS	Cover lifter, in.Stream bluetooth transducer music system, in.Touch remote communication system, colour matched steps

Neptune All-in-one Swim Spa

The Neptune is ideal for adults and growing families

Neptune specifications

DIMENSIONS	4.2m x 2.25m x 1.29m, water capacity: 5,000 litres, dry weight: 1,300kg
JETS	4 Swim swim jets plus 44 high power spa jets with stainless steel escutcheons
PUMPS	4 x 3hp 1 speed pumps
POWER SUPPLY	45 amp
POWER OUTPUT	4 counter current jets, producing up to 2,200 gallons output per minute
SHELL OPTIONS	Aristech in ocean wave, silver white marble, sand
CABINET OPTIONS	Maintenance free UV resistant synthetic wood in coffee or grey
HEAT & FILTRATION	3kw heater, 2 x 35 sq ft filtration cartridge, corona discharge ozone system
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in grey vinyl
CONTROL SYSTEM	Fully integrated Gecko programmable control system for circulation and filtration
LIGHTING	Underwater LED lighting, multi point perimeter and bar top LED lighting system
OPTIONAL EXTRAS	Cover lifter, in.Stream bluetooth transducer music system, in.Touch remote communication system, colour matched steps

Bigger sister to the Hydros, the Neptune is ideal for growing families and adults. A powerful home pool with plenty of space to either relax in the hot tub end or get your head down and swim against the counter currents.

The Neptune's 4.2m length means you can adjust the swim jets' power and settle into a steady swim pace whilst at the same time your swim partner can relax at the spa end. The Neptune is an ideal pool and spa for taller and more efficient swimmers.

The Neptune features a four pump, four jet counter-current system, each controllable for water speed, air flow and direction.

All four Swim jets are individually powered to give maximum swim resistance while the lower jets give the swimmer buoyancy.

 x6

Titan / Titan Pro All-in-one Swim Spa

Titan specifications

DIMENSIONS	5.24m x 2.25m x 1.29m, water capacity: 6,050 litres, dry weight: 1,400kg
JETS	4 Turbo counter current jets, producing up to 2200 gallons output per minute, 46 high power jets with stainless steel escutcheons
POWER SUPPLY	45 amp
TITAN PUMPS	4 x one speed 3.5hp jet pumps, dedicated 1hp circulation pump
TITAN PRO	Includes 10 speed variable speed drive
SHELL OPTIONS	Aristech in ocean wave, silver white marble, sand
CABINET OPTIONS	Maintenance free UV resistant synthetic wood in coffee or grey
HEAT & FILTRATION	3kw heater, 2 x 35 sq ft filtration cartridge, corona discharge ozone system
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in grey vinyl
CONTROL SYSTEM	Fully integrated Gecko programmable control system for circulation and filtration
LIGHTING	Underwater LED lighting, multi point perimeter and bar top LED lighting system
OPTIONAL EXTRAS	Cover lifter, in.Stream bluetooth transducer music system, in.Touch remote communication system, colour matched steps

The Titan has an enormous amount of swimming space coupled with a great spa end to soothe away aches and stresses. This pool is more than just a spa - it is also a serious exercise machine, with four Turbo swim jets giving you more powerful current than other exercise pools.

Whatever your speed or stroke you won't hit the sides or kick the seats. As a reward after your swimming workout, sit back and relax in the spa end which features an array of highly effective massage jets. When it comes to value, this is a lot of pool for your money.

Titan Pro

The Titan PRO has the same large swimming space and spa end as the standard Titan but with the addition of a variable speed drive. The 10 speed control allows the swimmer to select the best water speed for their fitness and stroke.

Poseidon / Poseidon Pro Two Volume Pool

The spa experience in the Poseidon is comparable to that of a luxury hot tub

Poseidon specifications

DIMENSIONS	5.8m x 2.25m x 1.29m Water Capacity - spa end: 1,491 litres, pool end: 4,981 litres, dry weight: 1,800kg
JETS	4 Turbo counter current jets, producing up to 2200 gallons output per minute 70 high power jets with stainless steel escutcheons
POWER SUPPLY	21 amp spa end, 45 amp pool end
POSEIDON PUMPS	4 x variable speed 3.5hp jet pumps, 2 x 3hp one speed jet pumps, 2 x dedicated 1hp circulation pump
POSEIDON PRO	Includes 10 speed variable speed drive
SHELL OPTIONS	Aristech in ocean wave, silver white marble, sand
CABINET OPTIONS	Maintenance free UV resistant synthetic wood in coffee or grey
HEAT & FILTRATION	2 x 3kw heater, 4 x 35 sq ft filtration, top loading cartridge, 2 x corona discharge Ozone system
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in grey vinyl
CONTROL SYSTEM	Fully integrated Gecko programmable control system for circulation and filtration
LIGHTING	Underwater LED lighting, multi point perimeter and bar top LED lighting system
OPTIONAL EXTRAS	Cover lifter, in.Stream bluetooth transducer music system, in.Touch remote communication system, colour matched steps

The ultimate swim and spa package, the Poseidon gives you the best of both worlds, to form one of the finest exercise pools available today.

Two volumes of water ensure that the spa end can be adjusted to hot and the swim end kept at a lower temperature more suitable for swimming against the powerful counter currents.

The spa end is the perfect space for up to five adults including a full length lounger seat with powerful hydrotherapy jets and LED lighting system. The swim end has four powerful Turbo jets and three jetted rest seats for when you are working out with friends and family.

The Poseidon is designed to a very high specification and crammed full of features to create a stunning swimming pool. Cutting-edge pump and heating technology ensures that the Poseidon is also extremely economical to run.

The Poseidon PRO has the same fully-featured, luxury hot tub and exercise pool all combined in two volumes of water but with the addition of a variable speed drive. The 10 speed control allows the swimmer to select the best water speed for their fitness and stroke.

Atlantis 4.6 / Atlantis 4.6 Pro Dedicated Exercise Pool

The Riptide Atlantis is a compact yet fully featured, dedicated swimming machine.

The Atlantis 4.6 is a compact but powerful dedicated exercise pool with a superior width of 2.35m. This is a pool designed for serious exercise, with all of the benefits you'd expect from a high-end swimming machine.

The Atlantis has no hydrotherapy jets or other hot tub features; with its four Turbo counter current jets and superior depth, this is an exercise pool totally focused on fitness and training regimes.

Atlantis 4.6 Specifications

DIMENSIONS	4.6m x 2.35m x 1.52m Water capacity: 6,450 litres Dry weight: 1,400kg
JETS	4 Turbo counter current jets, up to 2200 gallons output per minute
POWER SUPPLY	45 amp
ATLANTIS PUMPS 4.6	4 x one speed 3.5hp jet pumps, dedicated 1hp circulation pump
ATLANTIS 4.6 PRO	Includes 10 speed variable speed drive
SHELL OPTIONS	Aristech in ocean wave, silver white marble
CABINET OPTIONS	Maintenance free UV resistant synthetic wood in coffee or grey
HEAT & FILTRATION	3kw heater, 4 x 35 sq ft filtration cartridge, and corona discharge Ozone system
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in choice of coffee or grey vinyl
CONTROL SYSTEM	Fully integrated Gecko programmable control system for circulation and filtration
LIGHTING	Underwater LED lighting, multi point perimeter and bar top LED lighting system
OPTIONAL EXTRAS	Cover lifter, in.Stream bluetooth transducer music system, in.Touch remote communication system, colour matched steps, stainless steel support bars

The Atlantis 4.6 Pro is the ultimate swimming machine. With the addition of a variable speed drive with 10 speed control, the swimmer can select the best water speed to suit their fitness and stroke.

Atlantis 5.8 / Atlantis 5.8 Pro Dedicated Exercise Pool

Upgrade to the Atlantis 5.8 Pro and get total control over the power and speed of the counter current. Featuring a variable speed drive, the 10 speed control allows the swimmer to select their favoured water speed; slow for a leisurely dip, fast for a full on sprint.

With all the great features of the smaller 4.6, the Atlantis 5.8 has the extra benefit of a huge swim area for exercise.

The Atlantis 5.8 is the ultimate pool for exercise or for just relaxing after your workout. With its elegant steps across one end, entry into the Atlantis is easy.

With its four Turbo counter current jets producing up to 2200 gallons water output per minute, powerful pumps, crystal clear warm water and a deep, extra wide shell, swim to fitness in total luxury.

Atlantis 5.8 Specifications

DIMENSIONS	5.85m x 2.35m x 1.52m Water capacity: 6,450 litres Dry weight: 1,500kg
JETS	4 Turbo counter current jets, producing up to 2200 gallons output per minute
POWER SUPPLY	45 amp
ATLANTIS 5.8 PUMPS	4 x one speed 3.5hp jet pumps, dedicated 1hp circulation pump
ATLANTIS 5.8 PRO	Includes 10 speed variable speed drive
SHELL OPTIONS	Aristech in ocean wave, silver white marble
CABINET OPTIONS	Maintenance free UV resistant synthetic wood in coffee or grey
HEAT & FILTRATION	3kw heater, 4 x 35 sq ft filtration cartridge and corona discharge ozone system
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in grey vinyl
CONTROL SYSTEM	Fully integrated Gecko programmable control system for circulation and filtration
LIGHTING	Underwater LED lighting, multi point perimeter and bar top LED lighting system
OPTIONAL EXTRAS	Cover lifter, in. Stream bluetooth transducer music system, in. Touch remote communication system, colour matched steps, stainless steel support bars

Atlantis 4.6 / 5.8 Freestyle Dedicated Exercise Pool

The Atlantis Freestyle is the entry level to the Riptide exercise pools range. To exercise, swim against the elastic power of the swim rod system.

Available with a length of 4.6m or 5.8m, the Atlantis Freestyle features the high specification heating and filtration systems of our other models with just one wide mouth jet; exercise is achieved by swimming against the elastic pull of the swim rod.

Used by many professional swimmers, the swim rod looks similar to a fishing pole, which is anchored at 90° to the back of the pool and connected by a strong line to a velcro belt that the swimmer attaches to their waist.

The result is an awesome swim experience where you can swim as hard or slow as you like in any style, and the swim rod will keep you gently positioned in the centre of the pool.

Atlantis 4.6 / 5.8 Freestyle Specifications

FREESTYLE 4.6	4.6m x 2.35m x 1.52m Water capacity: 6,450 litres Dry weight: 1,350kg
FREESTYLE 5.8	5.85m x 2.35m x 1.52m Water capacity: 6,450 litres Dry weight: 1,450kg
SWIM SYSTEM	Swim rod system with single wide-mouth jet
PUMPS	2hp jet pump, 1 hp circulation pump
POWER SUPPLY	16 amp
SHELL OPTIONS	Aristech in ocean wave, silver white marble
CABINET OPTIONS	UV resistant synthetic wood in coffee or grey
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in choice of coffee or grey vinyl
CONTROL SYSTEM	Integrated Gecko programmable control system for circulation & filtration
LIGHTING	Underwater, multi point perimeter and bar top LED lighting system
OPTIONAL EXTRAS	Cover lifter, in.Stream bluetooth transducer music system, colour matched steps, four corner light system, stainless steel support bars

Manta / Manta Pro All-in-one Swim Spa

The spa experience in the Manta is comparable to that of a luxury hot tub

The Riptide Manta is a fully-featured, luxury hot tub and exercise pool all combined in one volume of water.

The Manta exercise pool comes equipped with four Turbo jets which create up to 2,200 gallons a minute of clear, turbulence-free counter current with no rough swimming and no air bubbles. The contrasting swim line provides a point of reference which helps to maintain a central position in the swim stream.

The hot tub end of the Riptide Manta features a full length lounger along with three other seating positions. The 32 high powered hydromassage jets can be adjusted independently and are elegantly finished with stainless steel escutcheons.

Manta Pro

With the addition of a variable speed drive with 10 speed control, the Manta Pro lets the swimmer select the best water speed to suit their fitness and stroke.

Manta Specifications

DIMENSIONS	5.94m x 2.29m x 1.54m, water capacity: 9,560 litres, dry weight: 1,750kg
JETS	4 Turbo counter current jets, producing up to 2200 gallons output per minute, 32 high power jets with stainless steel escutcheons
MANTA PUMPS 4.6	4 x one speed 3.5hp jet pumps, dedicated 1hp circulation pump
MANTA PRO	Includes 10 speed variable speed drive
POWER SUPPLY	45 amps
SHELL OPTIONS	Aristech in ocean wave, silver white marble or sand
CABINET OPTIONS	Maintenance free UV resistant synthetic wood in coffee or coastal grey
HEAT & FILTRATION	3kW heater, 4 x 35 sq ft filtration with top loading cartridges, corona ozone discharge system
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in choice of coffee or grey vinyl
CONTROL SYSTEM	Fully integrated Gecko programmable control system for circulation and filtration
LIGHTING	Underwater LED lighting, multi point perimeter and bar top LED lighting system
OPTIONAL EXTRAS	Colour matched steps, in.Stream bluetooth transducer music system, in.Touch remote communication system, stainless steel support bars

Riptide Manta Super Pro All-in-one Swim Spa

The Manta Super Pro is the most powerful all-in-one swim spa in the Riptide range, suitable for all levels of swimmer from beginners to top athletes.

Featuring the award winning Super Pro swim system with a British-designed Proflow 10hp pump coupled to a 1-44Hz variable speed drive, the Manta Super Pro offers an unparalleled swim experience with power output of around 3,500 gallons a minute of super low-turbulence water flow. The swimmer can increase or decrease the counter current power depending on their swimming ability. There is no turbulence or air bubbles in the water to cloud your vision.

As well as the high performance swim end, there are two 3hp jet pumps which power the jets at the hot tub end, with 32 powerful hydromassage jets with a full lounge and three other seating positions. All of these adjustable jets have beautiful stainless steel escutcheons, providing a spa experience to rival any dedicated hot tub.

Manta Super Pro Specifications

DIMENSIONS	5.94m x 2.29m x 1.54m Water capacity: 9,560 litres Dry weight: 1,850kg
JETS Swim end	250mm propeller system creating up to 3,500 gallons per min power output equal to a water speed of 5mph
JETS Spa end	32 high power jets with stainless steel escutcheons
PUMPS	7.5hp Proflow pump 2 x 3hp pumps
VARIABLE SPEED DRIVE	Includes 10 speed variable speed drive

The hot tub end features 32 high powered hydromassage jets with a full length lounge and three other seating positions.

POWER SUPPLY	52 amps
SHELL OPTIONS	Aristech in ocean wave, silver white marble
CABINET OPTIONS	Maintenance free UV resistant synthetic wood in coffee or grey
HEAT & FILTRATION	3kW heater, 4 x 35 sq ft filtration with top loading cartridges, corona discharge ozone system
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in choice of coffee or grey vinyl
CONTROL SYSTEM	Fully integrated Gecko programmable control system for circulation and filtration
LIGHTING	Underwater LED lighting, multi point perimeter and bar top LED lighting system
OPTIONAL EXTRAS	Colour matched steps, in.Stream bluetooth transducer music system, in.Touch remote communication system, stainless steel support bars

Nautilus / Nautilus Pro Dedicated Exercise Pool

The Nautilus is the largest Riptide dedicated exercise pool with loads of space and jet power

Experience a perfect combination of power and beauty in the Nautilus and Nautilus Pro. If you are a competitive swimmer, the Nautilus provides the ultimate swimming work-out.

The Nautilus offers a huge pool area with a smooth, turbulence-free swimming experience. The power is provided by four Turbo counter current jets generating force of up to 2,200 gallons of turbulence free water per minute power output.

With an ultra efficient heating, filtration and corona discharge ozone system, the water is always warm and crystal clear and ready for a swim anytime.

In the The Nautilus Pro, the addition of a variable speed drive with a 10 speed control allows the swimmer to select the best water speed for their fitness and stroke.

Nautilus Specifications

DIMENSIONS	5.9m x 2.25m x 1.59m Water capacity: 9,560 litres, dry weight: 1,550kg
JETS	4 Turbo counter current jets producing up to 2200 gallons output per minute
POWER SUPPLY	45 amp
NAUTILUS PUMPS	4 x one speed 3.5hp jet pumps, dedicated 1hp circulation pump
NAUTILUS PRO	Includes 10 speed variable speed drive
SHELL OPTIONS	Aristech in ocean wave, silver white marble
CABINET OPTIONS	Maintenance free UV resistant synthetic wood in coffee or grey
HEAT & FILTRATION	3kw heater, 4 x 35 sq ft filtration with top loading cartridges, corona discharge ozone system
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in grey vinyl cover in choice of coffee or grey vinyl
CONTROL SYSTEM	Integrated Gecko programmable control system for circulation & filtration
LIGHTING	Underwater, multi point perimeter and bar top LED lighting system
SPECIAL FEATURES	Anti-slip pool floor, steps allow entry from three sides
OPTIONAL EXTRAS	Cover lifter, in.Stream bluetooth transducer music system, in.Touch remote communication system, colour matched steps, stainless steel support bars

Nautilus Super Pro Dedicated Exercise Pool

4 years running

The Nautilus Super Pro is the ultimate swimming machine with an incredibly powerful variable speed counter current which provides an outstanding experience for strong swimmers.

With a 32 amp power supply, the powerful Super Pro uses surprisingly little energy

With 10 swimming speeds controlled via the visual display, at its fastest level the counter current is pushing out a force of 3,500 gallons of water a minute, equal to 5mph. At its lowest power setting a small child could comfortably doggy paddle.

Nautilus Super Pro Specifications

DIMENSIONS	5.9m x 2.25m x 1.59m Water capacity: 9,560 litres Dry weight: 1,800kg
PUMPS	7.5hp Proflow pump
VARIABLE SPEED DRIVE	Includes 10 speed variable speed drive
POWER OUTPUT	250mm propeller system creating up to 3,500 gallons per min power output. equal to a water speed of 5mph
POWER SUPPLY	32 amp
SHELL OPTIONS	Aristech in ocean wave, silver white marble
CABINET OPTIONS	Maintenance free UV resistant synthetic wood in coffee or grey
HEAT & FILTRATION	3kw heater, 4 x 35 sq ft filtration with top loading cartridges, corona discharge ozone system
COVER OPTIONS	Fully insulated, heavy-duty humpback thermal cover or rollup thermal cover in grey vinyl
CONTROL SYSTEM	Fully integrated Gecko programmable control system for circulation and filtration
LIGHTING	Underwater LED lighting, multi point perimeter and bar top LED lighting system
SPECIAL FEATURES	Anti-slip pool floor, steps allow entry from three sides
OPTIONAL EXTRAS	Cover lifter, in.Stream bluetooth transducer music system, in.Touch remote communication system, colour matched steps, stainless steel support bars

Nautilus Freestyle Dedicated Exercise Pool

The Nautilus Freestyle features the high specification heating and filtration systems as the other swim spas in the Nautilus series with just one wide mouth jet to create a gentle current. Swim against the elastic pull of the swim rod system for exercise.

Used by many professional swimmers, the swim rod system looks similar to a fishing pole, which is anchored at 90° to the back of the pool and connected by a strong line to a velcro belt that the swimmer attaches to their waist.

You can swim as hard or as gently as you like in any style, and the swim rod will keep you gently positioned in the centre of the pool.

Nautilus Freestyle Specifications

DIMENSIONS:	5.9m x 2.25m x 1.59m Water capacity: 9,560 litres Dry weight: 1,450kg

Colour ways

Installing a Riptide Pool in-ground

When choosing a Riptide Pool you have a choice of colour ways. for the shell choose either midnight, silver white marble, ocean wave or sand*. for the cabinet choose from slate grey or coffee. cover colours are grey, and coffee.

Shell colour choices

Silver White Marble Ocean Wave Sand*

Cabinet colour choices

Coastal Grey Coffee

Cover colour choices

Coastal Grey Coffee

Actual colours may differ slightly from colours shown.
* Sand shell not available on Atlantis and Nautilus models.
KiddySwim available in silver white marble only.

Riptide pools can be installed either above ground or in-ground. Here is the process for an in-ground installation.

1 First, the site must be cleared ready for the job to start.

2 The pit is dug out and then the base laid to concrete.

3 Concrete blocks are then used to provide strength and reinforce the pit.

4 The crane is called into action to hoist the pool carefully over the hedge and property.

5 Engineers work with the crane team to carefully lower the pool into position.

6 Joists for the decking are put into position ready for the timber to be laid on top.

7 Decking almost complete, changing rooms are ready for exterior cladding and glazing.

8 Rolling cover working great and the changing area glazed and looking fantastic.

Finished! The last of the timber cladding is fitted around the concrete blocks and the installation is complete.

Choosing the right counter current jets

There are four jet systems available on Riptide Pools, depending on model and pool size.

Swim Jets ▶

In a configuration of four, Swim counter current jets are available on the Neptune and Hydros all-in-one Swim Spa models. Featuring quality stainless steel escutcheons, Swim jets produce a water current of up to 2,200 gallons output per minute. Get all the swimming power you need for a proper workout, available on Neptune and Hydros all-in-one Swim Spa models.

Turbo Jets ▶

Turbo counter current jets produce a smooth, bubble free water current up to 2,200 gallons output per minute. Available in a configuration of four jets on our Titan, Poseidon, Atlantis, Manta and Nautilus models.

Turbo jets are also feature on the Riptide Pro models, with the addition of a 10 speed variable speed drive.

Wide Mouth Jets ▼

The three wide mouth swim jets featured on the Oceana exercise pool offer an impressive counter-current force to swim against for an exhilarating workout.

Proflow Jet ▶

The Riptide Nautilus and Manta Super Pro models feature the powerful Proflow 250mm propeller jet system. Powered by a 7.5hp pump, the Proflow jet creates a turbulence free water current of up to 3,500 gallons per minute power output, equal to a water speed of 5mph. Fitted with a 10 speed variable speed drive the Proflow is designed to satisfy competitive swimmers and professional athletes.

Row Exercise Kit

Transform your exercise pool into a hydro resistant arm and leg workout machine with the Row Exercise Kit.

Suitable for Poseidon, Atlantis and Nautilus models, the Row Exercise Kit allows you to train for a boat crew or simply to build endurance and full body strength in your Swim Spa. With a few simple attachment points you will be able to row in your pool and achieve the best low-impact resistance workout of your life.

Pool Exercise Bike

Cycle against the resistance of the pool water to build strength in core muscles, legs and glutes whilst improving stamina and burning calories. Manufactured from non-corrosive nylon and fibreglass, giving years of hassle-free operation.

Treadmill

Suitable for Poseidon, Atlantis, Nautilus and Manta models, walk or jog against the resistance of the water in your exercise pool with the underwater treadmill.

Underwater exercise is recommended by medical professionals for a variety of health benefits. The natural buoyancy of water allows you to power walk or jog with minimal stress on your joints. The treadmill is a perfect leg strengthening workout that also provides an excellent cardio workout to stay in shape and burn fat.

LIMITED WARRANTY

8 Year Structural and 5 Year Surface Warranty

Riptide warrants the galvanised steel sub frame not to crack or fracture for a period of eight years from delivery date. Additionally, the Aristech surface material of the Riptide Swim Spa is warranted not to peel, crack, wrinkle, blister, yellow, efface or delaminate for a period of five years from the swim spa's delivery date. The Aristech surfaces are non-permeable and will not absorb odours, bacteria or pollutants.

1 Year Trim (Tile) and Cover Warranty

Riptide warrants the cosmetic trim and swim spa cover to be free from defects in materials and workmanship for a period of one year from the swim spa's delivery date.

2 Year LED Light Warranty

Riptide warrants the LED lighting chains and bulbs to be free from defects of materials and workmanship for two years.

5 Year Gecko Hi Flow Heater Warranty

Riptide warrants the Gecko Hi Flow heater against fault in manufacture or faulty workmanship.

5 Year No Leak Warranty

Riptide warrants your swim spa not to leak for a period of five years from its delivery date. This warranty specifically covers leaks from the wall fittings, jet fittings, internal plumbing, internal glue joints, freeze drains and all bonded parts including the filter chamber and light fittings.

5 Year UV Resistant Synthetic Wood Cabinet Warranty

Riptide warrants the UV resistant synthetic wood cabinet material not to peel, crack, wrinkle, blister or delaminate and to be free from defects in workmanship for a period of five years from the swim spa's delivery date. This warranty specifically covers the cabinet's structural integrity, including all glue & integral bonded joints.

5 Year Component Warranty

Riptide warrants the electrical components, pumps, ozone generators, and other Riptide Swim Spa components against malfunction or defects in workmanship for a period of five years from its delivery date. Filter cartridges, swim spa pillows and cover locks are not included in this warranty, but are warranted to be free from defects in materials or workmanship at the time of delivery to the original consumer purchaser.

No-Nonsense Warranty Riptide will make no call-out or labour charges or ask for part payment of parts for the entire warranty period, provided that your swim spa has had an annual service within the last 12 months to validate the warranty.

Warranty subject to full terms and conditions

World class product, first class service

Riptide prides itself on producing world class products, delivering a first class after sales service and unbeatable customer care. We want you to enjoy your pool with the knowledge that you have the support from a company that truly cares about its customers.

Built to last a lifetime

Every Riptide pool features a superior Aristech acrylic shell with closed cell 2lb foam for insulation. All components fit snugly inside a galvanised frame with stainless steel cabinet fixings. Our pools have some of the highest specifications of any swim spas in the world!

Choice

With a choice of 18 great models we have the fitness pool to suit you and your lifestyle. As part of our service, our Dealerships provide test-soak facilities at their showrooms, so you can try our swim spas before you buy.

Customer care

Riptide Pools are delivered and installed by highly trained teams with a full range of on-board parts available, and specialist 'HIAB' lifting equipment if required. Dedicated technicians ensure superb after-sales service.
